

Photovoltaic panels laid on factory roof

Overview

Can solar panels be installed on a factory roof?

The roofs of factories are often the ideal place to install solar panels. As factories are energy-intensive buildings, installing a solar PV system on the roof of a factory ensures free power can be generated to run everything underneath it.

Can solar PV be installed on warehouse roofs?

Installing solar PV on warehouse roofs means generating free electricity for the warehouse and adjacent buildings, such as offices. Warehouse and logistics firms can significantly reduce their energy bills with a solar PV system.

Can industrial buildings use solar panels?

Industrial buildings have straightforward roof spaces that are ideal for solar panels. Businesses can significantly reduce their overheads by generating their own electricity from solar energy with industrial solar panels. Mypower specializes in installing high yielding and efficient industrial solar panels, which have won awards for their design.

What is GB-Sol's roof integrated solar PV system?

GB-Sol's roof integrated solar PV system enables full-sized, high efficiency solar panels to be discreetly fitted within any type of conventional roofing material. Our Projects team manage complex solar PV projects such as large commercial buildings, industrial environments and social housing retrofit programmes.

How much can I save by installing solar panels on my roof?

How much can I save on energy costs by installing solar panels on my factory roof?

Customers can see a healthy reduction in their bills of up to 80% annually, dependant on the size of the system installed. What is the typical return on investment (ROI) for solar panel installations in industrial buildings?

.

Are commercial roofs a good choice for solar panels?

These roofs are generally high enough to avoid shading issues, ensuring optimal performance from the solar panels. In fact, nearly a third of the commercial roof space in the UK is owned by warehouses, highlighting the immense potential for solar panel installations in this sector.
