

Photovoltaic panels on roof of self-built house

Overview

Can you make a whole roof out of solar panels?

It is possible to create a whole roof out of solar panels using an in-roof system. Making the whole roof out of solar panels can be a fantastic option as installing solar panels is an asset to the home because of the savings in electricity and feed-in tariff payments. Why not consider making it your total roof covering?

.

Are all roof types suitable for solar panels?

Not all roof types are suitable for solar panels. Solar panels work best when they can get as much direct sunlight as possible. In the UK, we are in the northern hemisphere. This means that the sun is above the equator and therefore your solar panels will be most effective if they are south facing.

Should you use solar panels when building a new home?

Today, when building a new home, it is required that you include energy saving measures and offsets such as cheap new build solar panels. These include solar panels or solar thermal systems. Solar panels do not need to detract from the attractiveness of your new build.

Can solar panels be mounted on a flat roof?

For solar panels on a flat roof, mounting systems are slightly different and can include a triangle 'ballast' box to support the panels. For solar thermal panels (with cells that use the sun's heat to warm water in a house) things are a little different.

Are solar PV panels a good option for self-builders and renovators?

Solar PV panels have long been a popular renewable technology among self-builders and renovators. Thanks to a mixture of government incentives and

falling technology prices, demand for solar photovoltaics (PV) has boomed over the last decade.

How does a solar powered house work in Scotland?

This solar powered house in Scotland generates all its electricity from 15kW of ground-mounted PV solar panels. The panels were placed at the edge of the property instead of disrupting the sculptural roof design. (The panels can be seen in the centre of the image behind grass and a fence.)
