

Photovoltaic panels on rooftops cost

Overview

The average cost of a solar panel installation is £7,100 (£9,600 with a battery) for a typical three-bedroom property in the UK. How much does a solar panel cost in the UK?

The average cost of a solar panel in the UK based on a 350-watt panel is currently between £500 and £800. However, please bear in mind that this is the price for a single solar panel and does not include the professional installation or any other extras e.g. pigeon proofing. With that said, let's explore some common solar installation scenarios.

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 – £1,500 whereas polycrystalline solar panels cost about £900 per kW.

How much does it cost to clean solar panels?

However, if you notice your solar panels becoming dirty – for example, bird droppings, or dust building up on them during a dry, hot summer – you should consider getting them cleaned. Solar panel cleaning by a professional will cost around £100, but you can do it yourself with a hose. How much do solar batteries cost?

.

How much does a solar panel installation cost?

Generally, two installers will work together to install your solar panel system, and depending on its complexity, they can take up to 3 days to complete the installation. This means that you can expect to spend anywhere between £600 and £3,000 on labour costs alone.

How much does solar panel maintenance cost?

The maintenance of solar panels would cost around £21.24 to £24.99 per month, depending on the service, repair, and health checks your solar panel system needs. Solar panel systems are low-maintenance; you just need to do routine checks and regular light cleaning.

How much does a solar PV installation cost per kilowatt?

The mean average cost per kilowatt of a small solar PV installation (0-4kW) is above £2,000 for the first time since these records began in 2013/14. Prices for larger solar installations (4-10kW) increased even more dramatically - by 31% since 2021/22.
