

Polynesian master power system 2

Overview

We can build special needs Power Master Couplers, for higher power applications. Shown above, a PowerMaster coupler for 20 kW with 7/16DIN connectors

Can I install firmware or software for the Power Master II?

IMPORTANT NOTE: Do not try to install firmware or software for the Power Master II into an old Power Master (A.K.A: Power Master I) or vice-versa. The download links available on this webpage are for one or the other model. Scroll down to the Downloads Section and please **BE CAREFUL WHEN SELECTING THE DOWNLOADING LINK.**

What type of power supply do I need for my Powermaster II?

Center: PMCC. The standard 6 feet (1.83 m) coupler shielded cable has stereo 1/4" plugs on both ends. A much longer cable can be used if necessary.
Bottom : PS-12R1A, regulated, noiseless linear power supply for the display.
PowerMaster II, it most have the "II" on the logo, otherwise it is a PM1. Latest software update for your Power Master II.

How do I know if my Powermaster II is a PM1?

PowerMaster II, it most have the "II" on the logo, otherwise it is a PM1. Latest software update for your Power Master II [PMII Software File](#).

What is a power Master II meter?

The Power Master II is a refinement of the original Power Master and is not a completely new model. After 5 years of success with the original, it was difficult to make changes since so much of the original meter is still appropriate and it works almost perfectly as it was originally envisioned.

What is the Powermaster II RF power/VSWR indicator?

Thank you for purchasing the Array Solutions PowerMaster II RF Power/VSWR Indicator. The PowerMaster II represents a breakthrough in features for measurement of the performance of your transmitting system. Microprocessor

control insures fast capture time and low power consumption.

What are the buttons on the Powermaster II?

In addition to the large (4x1") LCD display, VSWR and Power Alarm LEDs, there are two buttons on the front of the PowerMaster II: "Menu" and "Mode Select." F - Fast release of peak hold, ~0.2 second M - Medium retention of peak hold, ~1 second S - Slow release of peak hold, ~2 seconds
