Will solar PV module prices fall in line with Swansons law?

Though solar PV module prices are likely to continue to fall in line with

Swansons Law, they've already fallen to 0.49 \$/W and only make up 15% of the installation cost of solar panels. As we move forward any further significant drops in cost would need to come from one of the other price components.

What is a solar photovoltaic system?

Solar photovoltaic is a renewable energy technology that utilizes sunlight in order to generate electricity. A photovoltaic system is comprised of one or multiple solar panels, made up of solar photovoltaic cells, and a solar inverter.
