

Radio and Television Network Technology WeChat Group

Overview

Who invented WeChat?

WeChat was the brainchild of Allen Zhang, a legend in China's tech sector. Zhang created Foxmail in the late 1990s, and when his company was bought by Tencent in 2005 he led the development of QQ Mail, which became one of China's top mail service providers.

Why do Chinese people use WeChat?

People in this group rely heavily on WeChat, a super-app that nearly everyone uses in China, to stay connected with people on the mainland and communicate with other China-born contacts abroad.

Is WeChat a censored social media platform?

Widespread use of WeChat, a censored Chinese social-media platform, is helping it shut out those that are not. China's main spending on propaganda abroad has been on the foreign-language news services of its state-controlled media.

What is China Radio & TV network group?

China Radio and Television Network Group (China Radio and TV) was established in 2014 as the government's vehicle for unifying the nation's cable TV market. The state-owned company was intended to become a fourth telecom operator, to compete with the long-standing trio of incumbents, China Telecom, China Mobile, and China Unicom.

Is WeChat censored in China?

WeChat has almost 700,000 daily active users in Australia. Many Chinese newspapers increasingly rely on WeChat to reach new readers. To make that easier, they often censor themselves. In China, WeChat purges content that the party does not like.

How many red envelopes were sent and received on WeChat?

According to official data provided by WeChat, 1.01 billion red envelopes were sent and received on WeChat on lunar December 30, the Spring Festival shaking “red envelopes” interaction was used 11 billion times on WeChat from 20:00 to 00:48 next morning, and the peak of 810 million times per minute appeared at 22:34.
