

Reasons for the price increase of LONGi photovoltaic panels

Overview

Solar power equipment makers continued to lift prices this week as soaring polysilicon costs spread through the supply chain and threaten to slow clean energy deployment. How will polysilicon prices affect Longi & Tongwei solar?

Polysilicon price increases are affecting both LONGi and Tongwei solar. LONGi has increased its wafer prices for the third time in less than six weeks, while Tongwei solar has also raised the price of its 182mm and 210mm solar cells.

Why has Longi raised its wafer prices twice in a month?

LONGi has raised its wafer prices for a second time in just over a month as hopes of falling costs fade and China shuts down for a week for its annual Luna New Year holiday. LONGi yesterday (27 January) upped the price of its P type M10 165µm Mono Wafer (182/247mm) to US\$0.888. Its P type M6 165µm Mono Wafers (166/223mm) have increased to US\$0.744.

Why did China's largest solar manufacturer cut prices?

The world's largest solar manufacturer slashed prices for a key component as growing capacity in the sector intensifies cost competition. Chinese company Longi Green Energy Technology Co. cut wafer prices by as much as 31% on Monday. Wafers are silicon squares that are wired up and pieced together to form solar panels.

Why are China's solar prices slashed by 27 per cent?

Amid falling costs of the key material, polysilicon, due to excess supply, leading Chinese manufacturers Longi Green Energy Technology, TCL Zhonghuan and Tongwei Solar slashed prices by as much as 27 per cent, the China Silicon Industry Association said last week.

How many solar wafers did Tongwei get from shuangliang & Yingli?

Furthermore, Tongwei secured 104,800,000 wafers from Shuangliang and PV module manufacturer Yingli said its capacity has reached 8GW. Solar

manufacturer Longi has unexpectedly raised the prices of all its PV wafers via an update on the company website.

How much did Longi's mono wafers cost?

LONGi yesterday (27 January) upped the price of its P type M10 165 μ m Mono Wafer (182/247mm) to US\$0.888. Its P type M6 165 μ m Mono Wafers (166/223mm) have increased to US\$0.744.
