We'll confirm a date and time for the installation and take care of all the logistics. The best rent-to-own solar systems in South Africa, including Cape Town, Johannesburg, Pretoria and KwaZulu Natal. Contact Sun Savings for Solar Rentals.

Can a lease-to-own solar system be purchased in South Africa?

At the end of the lease term, you have the option to purchase the system for a residual fee, or return it to the provider. Here are the basic steps of a rent-to-own solar power system in South Africa:.

Should you rent-to-own solar?

A pro should check if your roof can handle the system safely and effectively. Rent-to-own solar gives you a great way to own the system over time but you need to pick the right system for your spot. This way, you get clean power and move towards owning your solar setup. To see if solar power is a fit for your place, talk to solar experts.

What is a rent-to-own Solar System?

You've probably wondered what 'rent-to-own solar systems' means, haven't you?

It's like a lease, but with an extra twist. Instead of just paying for the right to use something, you're also working towards owning it outright. And in South

Africa, this concept is taking off in the realm of renewable energy.

How does rent to own solar work?

Under a rent-to-own agreement, you lease a solar system from a provider for a set period of time, typically 5-10 years. During that time, you make monthly payments to the provider. At the end of the lease term, you have the option to purchase the system for a residual fee, or return it to the provider.

Rent to own solar systems south africa

The Real Cost of Home Solar Systems in South Africa

Recently, in South Africa's budget speech for 2023/2024, various tax incentives were announced for the implementation of solar systems. Individuals can claim back up to R15 000 for solar panels installed & companies receive a 125% benefit of the total panel cost on their taxable income.
