

Ridgid 2 0 pro gear system power tool case

Application scenarios of energy storage battery products

Overview

Is Ridgid pro gear compatible with Home Depot?

Ridgid will be launching a new Pro Gear 2.0 XL 3-drawer tool box at Home Depot later on in 2023. This is the first expansion to the Ridgid Pro Gear 2.0 modular tool box system that launched around this time last year. And yes, just in case you haven't noticed, it's 100% compatible with the Pro Gear cart!!.

Are Ridgid PRO GEAR tool boxes backwards compatible?

The Ridgid Pro Gear 2.0 tool boxes are backwards compatible with their earlier generation Pro Gear tool boxes and organizers. I haven't seen any exceptions so far, aside from the removable hand cart only working with 2.0 system XL tool boxes. The drawer tool boxes are also wall-mountable via Ridgid's Pro Gear 2.0 Fix & Go hangers (not included).

Which tool box cart works with Ridgid Pro tool storage system?

All-terrain wheels provide easy mobility to different work sites. This tool box cart works with the Ridgid Pro Tool Storage System for a complete, professional look. This Ridgid 22 in. Pro Gear Cart is made with durable, high-impact resin for long-lasting performance.

Which RIDGID Tool Kit should I buy?

For occasional use, the Ridgid JobMax 12V Multi-Tool Kit is a great solution for pro-minded homeowners. Although it has a limited run time compared to the 18V kit, it still provides plenty of power to get the job done. The real benefit of this kit is in the lightweight ergonomics of the tool. Pro-minded homeowners and occasional Pro users will find this kit suitable for their needs.

What are the replacement parts for Ridgid tools & equipment?

Need a little help?

The category contains replacement parts for Ridgid tools and equipment such as inspection cameras, drum and sectional machines, and drain cleaning machines. Questions?
