

# Roamer 460 ah lithium battery

## Overview

---

What is a roamer 460smart4 battery?

The Roamer 460SMART4 is a high capacity 12V 460Ah LiFePO4 battery for install in a campervan or boat. Includes 300A continuous discharge, active balancing, Bluetooth and plug and play integration with Victron. Free delivery, Roamercare, 10 year warranty and 5 star support from the UKs leading LiFePO4 manufacturer.

How long does a roamer 460smart4 last?

Maintaining excellent balance throughout its 15 year life expectancy, the Roamer 460SMART4 delivers stable, high power with each and every cycle. Our additional factory and warehouse testing processes ensure the highest possible quality and to top it all off, we back everything with a 10 year warranty. That's how much we believe in our product.

Are Roamer batteries a good brand?

If only all companies were as caring and thorough as Roamer Batteries, they are a top class small British business! First and foremost Roamer batteries “do what they say on the tin”. Having purchased batteries before that did not live up to their amp hour claims, this is a brand you can trust.

What components make up a Roamer battery?

A Roamer battery consists of innovative custom BMS components, including over/under voltage, high/low temperature, short circuit and over current protection, and active cell balancing. All these components are seamlessly monitored via Bluetooth. Go gas free with up to 2.5x the power of other lithium battery brands.

Does a Roamer battery have a precharge resistor?

Every Roamer battery includes a precharge resistor to protect the battery BMS from high surge currents. This feature helps prevent damage from large

inverters or other capacitive loads. Our state-of-the-art BMS app lets you access your SMART battery via Bluetooth.

What is a Roamer SMART battery?

The Roamer SMART battery is a smart battery with a balancing current of up to 2000mA, compared to the typical 50mA found on other BMS. It can handle a wider range of charge voltages and is less prone to cell voltage drift due to incorrect charging. A Roamer SMART battery is serviceable, repairable, and upgradeable.

## Roamer 460 ah lithium battery
