

Roll-type solar panels

Overview

What is a rollable solar panel?

Rollable solar panel design incorporates an amorphous technology so that no glass is used and a significant wattage range can be covered. In this way, rollable solar technology makes it possible to charge batteries up to 12V. Used with the right cables and accessories, it's also possible to charge and run devices.

What is a rollable solar charger?

Dim. (L x W mm) The PowerFilm® Rollable solar charger is the go anywhere, do anything, stand-up to the toughest punishment, lightest, most flexible, waterproof (including saltwater) solar panel on the planet.

Are rollable solar panels waterproof?

Rollable Solar Panels are lightweight, durable, and extremely portable. The solar panels are fully waterproof, IP67 rated, and constructed with marine-grade connectors to provide a portable solar solution for any wet or harsh environment.

What is a 60W rollable solar panel?

The 60W Rollable Solar Panel is perfect for keeping 12V batteries topped off and ready to go when you are. Connect one of our weatherproof panels and start your boat, car, RV, lawnmower, or ATV the first time. Extend Battery Life - as much as 6-10 years.
