

# Rooftop solar storage project financing options in Hungary 2025

## Overview

---

The energy ministry said on Wednesday that electricity providers will be offered grants totalling 58 billion forints (EUR 155m) to build and complete storage facilities by mid-2025. Will Hungary provide grants for energy storage projects in 2025?

The Ministry of Energy in Hungary will provide grants for the deployment of energy storage projects, with some 1GWh targeted by 2025. From June, system operators and distribution companies will be able to apply for subsidies to build energy storage facilities by the summer of 2025 at the latest, the Ministry said.

How has Hungary progressed in the development of solar energy?

Hungary has made significant progress in the expansion of solar energy in recent years, both in the area of private solar installations and in the construction of large industrial solar power plants.

How many solar panels will be installed in Hungary in 2024?

More than 300,000 small solar systems, mostly on the roofs of family houses, will be operational soon in Hungary. The total installed capacity of solar PV systems, including industrial scale PVs exceeded 7,550 megawatts (MW) by the end of 2024.

How many solar PV systems will be installed in Hungary?

More than 300,000 small solar systems will be operational soon in Hungary. The total installed capacity of solar PV systems exceeded 7,550 MW.

What are the challenges facing solar energy in Hungary?

Despite the dynamic growth, there are some challenges in Hungary that could make the further expansion of solar energy difficult. One of the biggest hurdles is network capacity. Network bottlenecks and limited connection options mean that many planned large-scale projects cannot currently be

connected.

How many solar plants will Hungary have by 2030?

Lantos said Hungary's solar energy capacity has surpassed 7.5 GW. By 2030, they are calculating that there will be 12 GW of solar plants, but additional network investments will be needed to connect this capacity to the grid.
