

Sanhua Energy Storage Cabinet

The advertisement features a central image of a Sanhua Energy Storage Cabinet, a tall white unit with multiple horizontal compartments, each containing a battery module. The cabinet is shown in front of a house with solar panels on the roof. To the right of the cabinet are four circular icons: a hand pointing to a button, a globe, a battery with a lightning bolt, and a bell with a lightning bolt. Below these icons are four text blocks: 'easy to install and use', 'World wide Products', 'faster charging and discharging', and 'Multiple protection with alarm systems'. At the bottom right, there is a large heading 'Can save energy' followed by two paragraphs of text: 'the battery capacity can be increased freely and flexibly according to the situation of home use.' and 'Rechargeable lithium batteries use safe LiFePO4'.

easy to install and use

World wide Products

faster charging and discharging

Multiple protection with alarm systems

Can save energy

the battery capacity can be increased freely and flexibly according to the situation of home use.

Rechargeable lithium batteries use safe LiFePO4

Overview

Who is Sanhua?

Sanhua is a leading HVAC&R manufacturer of controls and components with a global footprint and 30 years of experience. Our co-operation with the largest companies in the Automotive, Appliance and HVAC&R industry makes Sanhua a leading worldwide OEM supplier providing the highest quality components at the most competitive price.

How has Sanhua changed the HVAC industry?

Furthermore, strategic acquisitions by Sanhua of leading HVAC brands such as Ranco and Aweco and joint venture projects with Danfoss transformed Sanhua into one of the largest manufacturers of Expansion, Solenoid and Reversing Valves with annual valve sales exceeding 100 Million pieces.

Why should you choose Sanhua?

After sustainable growth over the last 3 decades, Sanhua have made significant progress to introduce a comprehensive range of controls and line components for the Commercial Air conditioning and Refrigeration Industries and to increase its service level coverage in Asia Pacific markets.
