

# Sanjing will withdraw from photovoltaic inverters

## Overview

---

What is Saj's new residential battery inverter?

SAJ unveiled a new line of residential battery inverters for residential PV applications at the Genera trade show in Madrid last week. The new products are available in single-phase and three-phase configurations. "It is specifically tailored to the needs of European consumers," said the Chinese battery manufacturer.

How efficient are Saj inverters?

SAJ is selling five versions of the three-phase devices, with AC power ratings ranging from 5 kWh to 10 kWh. The inverters have a maximum efficiency rating of 98% and a European efficiency rating of 97.6%. They measure 450 mm x 626 mm x 365 mm and weigh 32 kg.

How big is a saj battery inverter?

They measure 450 mm x 626 mm x 365 mm and weigh 32 kg. The maximum input voltage is 1,000 V and the MPP voltage range is between 180 V and 900 V. SAJ offers seven versions of the single-phase battery inverters, with AC power ratings between 3 kW and 6 kW. The maximum efficiency is 97.6% and the European efficiency is 97%.

How much power does a PV system have?

The PV system power ranges from 7.5 kW and 15 kW and the maximum DC voltage is 1,000 C. The efficiency is 98.0% and the European efficiency rate is 97.6%. These products measure 450 mm x 626 mm x 365 mm and weigh 32 kg. The product lines feature an IP65 protection rate and cooling system based on natural convection.
