

Sep solar company

Overview

How will a Sep merger help SEPs grow?

The merger with The Sep is expected to accelerate SEP's already rapid growth and enable the company to expand its footprint into several other states, offering its services to millions more throughout the country.

What is solar energy purchase (Sep)?

Get all the information you need to generate your own clean energy. Take one step ahead towards generating your own solar energy. Solar Energy Purchase (SEP) is an option for TNB customers to buy energy using solar panels owned by a third-party Investor/Asset Owner.

What is the Solar Energy Program (SEP)?

The SEP seeks to provide public schools in far-flung barrios and remote islands with a sustainable power source by harnessing solar energy. Since its launch in 2011, the program has already energized 245 of-grid island and mountain public schools in 38 provinces (OMF, 2019).

Is Sep a good solar company?

SEP is a widely trusted solar company that serves 30 states in the US and has repeatedly ranked highly in efficiency, quality, and innovation. As an award-winning company, SEP's representatives are not limited to only one manufacturer of solar panels, installers, or financiers.

What is Solar Energy Partners?

Solar Energy Partners (SEP) is a company based in Turlock, California, founded by Alex Williams, Clint Williams, and Dave Madrid in the spring of 2017.

How many contractors does SEP have?

As a result of the merger, SEP now has over 500 contractors in five states.

This represents a 500% growth rate in the past year. Todd Jensen, Founder at The Standard, says, 'We are pleased to join forces with Solar Energy Partners as one entity to further the momentum that they've recently seen.'
