

Sma inverter support

Overview

What type of inverter does SMA offer?

SMA offers five three-phase commercial inverter options, ranging from 12 kW to 30 kW. All inverters connect to 480 VAC three-phase utility service. The detachable CU1000-US-10 DC connection unit has fusing for both MPPT inputs, and allows for easy swap out of the inverter for servicing. Tripower inverters all feature integrated DC AFCI.

Can an SMA inverter reduce electricity bill?

An SMA inverter can help you save more money by reducing the grid quality charge component of your electricity bill through its built-in grid support functionality. By feeding reactive power as well as active power, it corrects a bad power factor.

What is the SMA online service center?

The SMA Online Service Center gives PV professionals an edge and allows them to spend less time servicing and more time on revenue generating activities. With the ability to track a service case, request a rebate or inverter exchange, sign up for an extended warranty and access support documentation, unrivaled service is right at your fingertips.

How does a SMA inverter improve grid quality?

SMA inverters can help improve a site's power factor through the use of built-in grid support functionality, such as a dynamic $\cos(\phi)$ function. This improvement can help reduce grid quality supply charges a customer might incur from their electricity provider.

Where are SMA Solar inverters made?

The SMA Group, with sales of 1.9 billion euros in 2010, is the world market leader for solar inverters, a component that lies at the heart of every solar power system. Its headquarters is situated in Niestetal near Kassel and it also

has 17 foreign subsidiaries situated on four continents.

Does SMA offer warranty service for residential PV systems?

SMA offers comprehensive warranty service for residential PV systems. SMA provides individual service solutions for commercial systems, PV power plants and independent power supply. With many emerging markets the PV market is far more fragmented than before.
