

Solar Panel tender price in France 2026

Overview

France has awarded 971MW of ground-mount solar capacity, to 165 projects, in the eighth round of the PPE2 PV tender.

France has awarded 971MW of ground-mount solar capacity, to 165 projects, in the eighth round of the PPE2 PV tender.

The last three rounds of the PPE2 tender have all delivered an average power price of around €79/MWh. Image: Apex Energies. The French Ministry of Ecological Transition and Territorial Cohesion has awarded 971MW of ground-mount solar capacity, to 165 projects, in the eighth round of the second.

The average price of the proposals stood at EUR 68.51 (USD 69.95) per MWh, up from EUR 58.84/MWh recorded in the initial tender, in which 71 projects were awarded. In terms of capacity, the largest winner is a unit of Q Energy France, which bagged a 66-MW project in Lac des Longchamps. France's.

France allocates 971 MWp in a heavily oversubscribed auction for ground-mounted PV, with another round due by year-end. France has awarded 971 MWp in its latest ground-mounted solar auction, a round that drew more bids than available capacity and kept average prices competitive. The energy.

The French Energy Regulatory Commission (CRE) has launched the 10 th tender round for solar PV installations for the commercial and industrial (C&I) segment for the 2021-2026 period with individual capacities of over 500 kW. The previous call was also for 400 MW capacity. Solar panels for the.

The French government launched a seven-round tender scheme in July 2021 to allocate around 28 GW of renewable energy capacity by the end of 2026. The CRE, France's energy regulator, has released a report analyzing the results of tenders held between 2021 and 2023. By the end of 2023, the CRE.

France concludes C&I rooftop PV tender with average price of €0.0982/kWh
The French authorities have concluded a commercial and industrial (C&I) rooftop PV tender with an average price of €0.0982 (\$0.1067)/kWh. The government allocated 220 MW of PV capacity in total. March 11, 2025

Gwénaëlle. How many MW does France need for a solar PV project?

France has awarded 339 MW of new capacity in its latest PPE2 tender for ground-mounted solar photovoltaic (PV) projects, which called for 700 MW but ended up undersubscribed and saw an increase in the average proposed price. Solar panels. Photo by: Neoen ().

Does France's auction mechanism lead to cheaper solar energy?

The French energy regulator says in a new report that France allocated about 5.55 GW of PV capacity through its auction mechanism for large-scale solar between 2011 and 2013. Despite falling solar module prices, the auction mechanism did not lead to cheaper PV electricity or lower project costs. From pv magazine France.

How much does a ppe2 solar project cost in France?

The French Ministry of Ecological Transition this week announced 71 winners in its PPE2 tender for ground-mounted solar photovoltaic (PV) projects with an average proposed price of EUR 58.84 (USD 65.23) per MWh. Neoen's Cestas solar park. Photo by: Neoen ().

How much does a MWh project cost in France?

The French Ministry of Ecological Transition last week announced 38 winners in the second call. The average price of the proposals stood at EUR 68.51 (USD 69.95) per MWh, up from EUR 58.84/MWh recorded in the initial tender, in which 71 projects were awarded.
