## Overview

---

What are solar panel mounts & racks?

Solar panel mounts and racks are equipment that secures solar panels in place. Mounting allows the panels to be adjusted for optimal tilt, which can be based on latitude, seasons, or even time of day — to ensure maximum solar energy production.

What is a solar racking mounting bracket?

Mounting brackets are heavy-duty equipment, usually made from stainless steel or aluminum. All solar racking and mounting products, whether for the rooftop or ground, must meet strict guidelines to ensure durability and structural integrity to withstand high winds and weather events.

What is a solar mounting system?

Modern solar mounting systems consist of roof attachments (with or without flashing), mounting rails, and module clamps. These products are designed to allow workers to quickly and effectively install solar panels that will last for decades on the roof, with minimal effect on the roofing materials and no roof leaks.

What is solar panel racking equipment?

Solar panel racking equipment is built with 3 main components: Each tool plays a key role in how the structure supports your panels, to ensure you get the most amount of solar power out of them. The roof attachments are the fasteners that will be drilled into your roof in order to secure the racking system in place.

What are the best solar mounting and racking brands?

The top two high-quality solar mounting and racking brands are: Originally, IronRidge supported mostly small, off-grid projects. But today, IronRidge is known for its uniquely shaped and durable XR rail series for pitched roofs.

They have equally great options for flat roofs and ground mounts, as well.

Can solar panels be installed with solar panel mounts?

Enter your zip code below to find out the potential savings for installing solar panels with solar panel mounts on your home. Solar panel mounts secure solar panels either to your roof or on the ground. Solar panel mounts typically account for 10% of the total solar panel installation cost.
