

# **Solar Power Plant for Giant Pandas**

## Overview

---

Is this China's largest solar power plant in the shape of a panda?

A new solar power plant in Datong, China, however, decided to have a little fun with its design. China Merchants New Energy Group, one of the country's largest clean energy operators, built a 248-acre solar farm in the shape of a giant panda. The first phase, which includes one 50-megawatt plant, was completed on June 30, according to PV magazine.

Did China build the world's first solar power plant shaped like a panda?

China has taken renewable energy to adorable new levels by building the world's first solar power plant shaped like a panda. The plant was built in Datong Shanxi as part of an initiative advocating for renewable energy, according to a release from the China Merchants New Energy.

Can a solar plant be shaped like a panda?

In Datong, China, a panda-shaped solar plant was built. Ada Li Yan-tung, who was 15 years old at the time, came up with the idea to get more young people in China interested in renewable energy by building a massive solar-energy farm that resembles a panda.

What is the Panda Power Plant?

The Panda Power Plant in Datong, China will stretch 1,500 acres when complete. China Merchants New Energy Group worked with the United Nations Development Program (UNDP) to make the Panda Power Plant a reality. The project is part of a larger effort to raise awareness among young people in China about clean energy, the UNDP wrote in a statement.

Does China have a solar farm shaped like a panda?

China has a 250-acre solar farm shaped like a panda in Datong. This is part of China's commitment to ramping up renewable energy resources. The effort is also a PR campaign as China continues to lead the world in renewable energy

investment.

Will China build the world's first panda-shaped power plant?

In an effort to advocate for renewable energy, companies in China have come together to build the world's first panda-shaped power plant. The plant is part of the Panda 100 Program, which seeks to build more solar farms over the next five years.

## Solar Power Plant for Giant Pandas

**Efficient**  
Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 50% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

**Intelligent**  
Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart ITC Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible**  
Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead Acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

### China Just Built a 250-Acre Solar Farm Shaped Like a ...
