

Solar companies building projects

Overview

What is the major solar projects list?

SEIA Members: Access the searchable database The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is for informational purposes only, reflecting projects and completed milestones in the public domain.

Who is constructing the largest solar project in the world?

Ameresco Sunel Energy SA has started constructing Lightsource bp's 560MW Enipeas solar PV project in Greece, the largest in its portfolio. A round-up of the latest solar project news, as Lightsource bp commissions its first PV project in Poland, Soltec receives EIA on a 220MW solar portfolio in Italy and Iberdrola completes two plants in Portugal.

Who are the world's top solar developers?

Image: TotalEnergies The top ten utility-scale solar developers from across the globe accounted for 145GW of operational, under construction and contracted projects between July 2022 and June 2023, with French energy giant TotalEnergies being the top solar developer, according to research firm Mercom Capital Group's latest report.

How many solar projects are there?

Quick Facts There are more than 7,230 major solar projects currently in the database, representing over 251 GWdc of capacity. There are over 1,020 major energy storage projects currently in the database, representing more than 43,650 MWh of capacity. The list shows that there are more than 137 GWdc of major solar projects currently operating.

What is the latest solar project news?

A round-up of the latest solar project news, as Lightsource bp commissions its

first PV project in Poland, Soltec receives EIA on a 220MW solar portfolio in Italy and Iberdrola completes two plants in Portugal. In the first half of 2024, Italy has installed 3.7GW of new renewable energy capacity, of which 3.3GW came from solar PV.

Which solar PV projects have received an AAC in Spain?

Solar PV accounted for 90% of all renewables that received an Administrative Construction Authorisation (AAC in Spanish). Ameresco Sunel Energy SA has started constructing Lightsource bp's 560MW Enipeas solar PV project in Greece, the largest in its portfolio.
