There are 5 solar companies in Jacksonville, FL on the EnergySage Marketplace.

Does Jacksonville Florida have solar energy?

Jacksonville, Florida gets an average of 221 sunny days per year, and of that sunshine translates to impressive opportunities to generate solar energy with a home solar energy system. Another perk is that, in Florida, any extra energy you generate can be sold back to the grid for full retail cost. Our ratings are unbiased.

How do I choose a solar installation company for my Jacksonville home?

When choosing a solar installation company to service your Jacksonville home, there are several important things to keep in mind. The median Jacksonville household size is 1,859 square feet; this factor will drive what size solar system is best for your home.

How much does solar cost in Jacksonville FL?

The average price per watt of solar power in Jacksonville, FL is \$2.33/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$21,536 for a 13.18 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Who installs solar panels & battery storage systems in Jacksonville?

Here are some Jacksonville companies that install panels and solar battery storage systems: AltWays, LLC. Picking a solar company is the most important decision you make when going solar. You need to trust them to drill holes in your roof, help you navigate financing and incentives and provide you with 25+ years of customer service.

Are solar panels a good idea in Jacksonville?

In Jacksonville, you can reduce your carbon footprint by 90 pounds a year with solar panels. As you can see, using solar power has so many other perks apart from saving money. One of the major ones is that you can help save the environment too. Which solar panel installer is the best in Jacksonville?
