We'll confirm a date and time for the installation and take care of all the logistics. The best rent-to-own solar systems in South Africa, including Cape Town, Johannesburg, Pretoria and KwaZulu Natal. Contact Sun Savings for Solar Rentals.

What is a rent-to-own Solar System?

In this landscape of innovation, the Rent-To-Own (RTO) solar programme has emerged as a beacon of opportunity, empowering homeowners and small businesses to embrace solar panel systems without the weight of initial expenditures.

What is rent-to-own solar leasing?

Rent-to-own solar leasing means you can pay off your solar system in fixed monthly instalments and take on full ownership at the end of the solar lease agreement. Brought to you in partnership with Merchant West Merchant West is one of the largest privately-owned financial institutions in South Africa.

Does sinetech offer a rent-to-own Solar System?

Sinetech offers a range of small, medium and large rent-to-own solar systems designed to meet your power requirements and budget. And if you need a solar system rental plan with specialised terms, our team can create a bespoke deal, including ones with no deposit or a longer rental period. Small.

How do Solar Lease companies make money?

All the solar lease providers listed make their money by financing a solar system for your home and then selling you the solar electricity from the panels. In most cases, the companies promise you will save money on your power bills in the first year – a win-win situation.

Should you buy or lease a solar system?

If you purchase your solar system instead of leasing it, you can take advantage of all available incentives. By owning your system, you'll typically see electricity cost savings between \$10,000 and \$30,000 over the next 25 years - which are larger savings than if you lease your panels.
