

# Solar company troy ny

## Overview

---

How much did first solar buy Troy Township?

First Solar, a Tempe, Ariz.-based solar company, purchased the almost 1.2 million-square-foot Troy Township facility and land from Peloton for \$33 million, according to Wood County property records. Peloton purchased the property, by U.S. 23 and Pemberville Road, for \$6.2 million.

Who is Albany solar solutions?

At the start, Travis Sherman, the owner and installer of Albany Solar Solutions, was exceptionally communicative and knowledgeable in photovoltaic systems. He performed the pre-event paperwork and the installation in a timely manner. The system has performed to expectations with the exception of two micro-inverter failures within two years.

Are Albany solar solutions solar panels reliable?

The solar panels are reliable, the equipment connected to them is not (this includes: optimizers and rapid shut-down devices, etc.). To be fair, Albany Solar Solutions did replace the first inverter under warranty, albeit after a two-month wait.

Did Albany solar solutions replace the first inverter under warranty?

To be fair, Albany Solar Solutions did replace the first inverter under warranty, albeit after a two-month wait. The present failure occurred December 2022 and tentatively won't be repaired until the spring of 2023, as they do not perform rooftop service during the winter months. This is unfortunate, but understandable.

Why should you choose Albany Solor solutions?

Elite installers earn top ratings from customers, endorsements from vendors, and win customers more frequently than their peers. The team at Albany Solor Solutions were amazing to work with. They were efficient, professional, clean

and delivered as promised.
