

Solar edge inverter pairing

Overview

Select your preferred wireless network and insert a password, then click “join.” You will now be connected to your Wi-Fi network. To confirm the connection is successful, click on “inverter communication” in the menu. Connect to the inverter and verify the status as S_OK. How do I pair an inverter and a power optimizer?

Inverter pairing and configuration is managed through the SetApp menu on your smartphone. Once the inverter and power optimizer pair, the system start up process begins. The power optimizers start producing power, and the inverter starts converting power from DC to AC. Click any of the categories to find the documents in our Knowledge center.

How do I connect my inverter to my Smartphone?

A local Wi-Fi connection is created between your smartphone and the inverter. System firmware is upgraded, and the system is activated. Inverter pairing and configuration is managed through the SetApp menu on your smartphone. Once the inverter and power optimizer pair, the system start up process begins.

How far can a SolarEdge inverter be installed?

SolarEdge inverters and power optimizers can be installed at a minimum distance of 50 m/ 164 ft from the shoreline of an ocean or other saline environment, as long as there are no direct salt water splashes on the inverter or power optimizer. Page 29 Mounting the Inverter Figure 9: Clearance areas 20 cm (8") from the top of the inverter.

How do I connect my SolarEdge to my Wi-Fi?

Log into mySolarEdge - contact your installer if you still need a Username/Password to access the Monitoring Platform. Tap " Inverter Communication " in the menu. Follow the app's instructions to connect to the inverter's WiFi (if you are not already connected). The status of your Wi-Fi connection should be ‘disconnected’.

How do I know if my SolarEdge inverter is working?

Take note of the serial number on the inverter label using the detachable 2D barcode sticker on each device. This information is used in the SolarEdge monitoring platform to identify this inverter. Your SolarEdge power harvesting system is now operational.

How do I Pair my inverter?

1. Perform pairing: Press and hold down the inverter LCD OK button for about 10 seconds. The following message is displayed: to enter menu.
2. Turn the inverter ON/OFF switch to ON within 5 seconds. If you wait longer than 5 seconds the inverter exits the pairing mode.
