Overview

What is the solar harvest - solar energy support scheme?

The Solar Harvest - Solar Energy Support Scheme for Schools and Welfare Non-Governmental Organisations is open for a new round of applications today (October 19). The Government has set the decarbonisation strategy of "net-zero electricity generation" in Hong Kong's Climate Action Plan 2050 promulgated in 2021.

What is solar Harvest - Solar energy support scheme?

Solar Harvest - Solar Energy Support Scheme for Schools and Welfare Non-Governmental Organisations" Guide to Application 1. Introduction 1.1. Solar Harvest for non-governmental organisations ("NGOs") which are receiving recurrent subsidies from the Social Welfare Department ("SWD") in installing small-scale solar energy generation systems.

Can solar energy be used in schools?

Plus, the schools can integrate the solar energy generation system into teaching to enhance students' environmental awareness and interest in science. The Government said the scheme has received an enthusiastic response since its launch in 2019.

How does solar harvest help schools and welfare NGOs?

Solar Harvest also assists participating schools and welfare NGOs in joining the FiT Scheme of the two power companies. All relevant expenses will be fully covered by Solar Harvest. The EMSD has so far installed about 370 solar energy generation systems at participating schools and welfare NGOs.

How much electricity does solar harvest generate?

Solar Harvest has installed more than 700 10-kilowatt solar energy generation systems in 500 eligible schools and welfare non-Governmental organisations. It is expected to generate approximately 6.4 million kilowatt-hours of

electricity per year, equivalent to the annual electricity consumption of approximately 1,950 three-person households.

Who owns the solar energy generation systems installed under solar harvest?

3.6 Selected schools and welfare NGOs will be the owner of the solar energy generation systems installed under Solar Harvest. They will need to bear the costs of the on-going operation and maintenance of the solar energy

Over 1 cr households signed in for Rooftop Solar Scheme for free

The rooftop solar project, which was launched in February, promises an investment of over Rs 75,000 crore, that is going to benefit 1 crore households by providing up to 300 units of free

[PM-Surya Ghar Muft Bijli Yojana](#)

The Union Cabinet had approved PM-Surya Ghar Muft Bijli Yojana (PM's Rooftop Solar Free Electricity Scheme) with a total outlay of Rs.75,021 crore for installing rooftop solar and providing free electricity up to 300 units every month for One Crore households.

- Efficient Higher Revenue**
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 600V
 - 100% Peak Output Power
 - 3 MPPT Trackers, 150% DC Input Overloading
 - Max. PV Input Current 10A, Compatible with High Power Modules
- Intelligent Simple O&M**
 - IP66 Protection Degree, support outdoor installation
 - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
 - DC & AC Type II SPD, prevent lightning damage
 - Battery Reverse Connection Protection
- Flexible Abundant Configuration**
 - Plug & Play, EPS Switching Under 20ms
 - Compatible with Lead acid and Lithium Batteries
 - Max. Current Inverter Available
 - AFC Function (Optional): when an arc fault is detected the inverter immediately stops operation

Install a battery

New battery incentives will be available from 1 November 2024 to help homes and businesses maximise the use of the solar energy they generate and cut the cost of electricity bills. Skip to navigation Skip to content A NSW Government website
