How many solar companies are in Florida?

The state has over 223,873 installations and 471 solar companies, with 6.75% of its electricity coming from solar power. Florida's \$20 billion investment in solar isn't slowing down, especially since pricing for the state has dropped 47% over the last 10 years.

Should I get a solar panel system in Florida?

Florida is known for abundant sunshine, making it ideal for switching to solar energy. It's also known for severe storms that knock out power, which is a good reason to have a backup power source. If you're considering getting a solar panel system, we found several well-rated companies operating in your state.

Does Florida have solar power?

Florida ranks third in the nation for solar energy capacity, behind California and Texas. The state has enough solar installations to power over 1.5 million homes, and yet just over 6% of Florida's electricity comes from solar. This is largely due to Florida's current legislation that prevents power purchase agreements (PPAs).
