

Solar energy in telangana

Overview

When it comes to solar energy production in south-central India, Telangana has received enough solar irradiation to generate 20GWp of solar energy. Telangana plans to add about 3,000 MW of clean energy capacity in about four to five years. Does Telangana need solar power?

According to the Telangana State Renewable Energy Development Corporation Limited (TSREDCO), which is the State-designated agency for implementing all renewable energy programmes, there has been a huge demand for solar power particularly.

What is the energy potential of Telangana?

- Telangana has a vast solar potential estimated at 20.41 GW and a wind energy potential of 4.2 GW.
- Telangana has a total installed capacity of 4+GW renewable energy power, including solar energy at 3,621 MW and wind energy of 128 MW besides contribution from other renewable energy sources.

Why should Telangana promote solar power generation?

Growing energy demand in the State. ● Promotion of Solar Power Generation will help Telangana state to achieve energy security and create direct and indirect employment potential.

Does Telangana have a potential for solar developers?

Telangana plans to add about 3,000 MW of clean energy capacity in about four to five years. The key commercial sectors of Telangana are Information technology, agriculture, and tourism. It means this state has lots of potential for solar developers. Let's analyze the state from the point of view of solar developers.

How many solar projects are there in Telangana?

Barring one Project, in which more than 100 MW of solar capacity is located, the state had encouraged projects across over 180 locations, instead

of concentration of projects at one location as in solar parks. TSREDCO has been nominated as “Nodal Agency” for implementation of New; Renewable Energy Programs inTelangana.

How much wind power does Telangana use?

Telangana’s total installed capacity from wind power is 128 megawatts (MW) including 100 MW from Pargi windmills and 28 MW from windmills on the Hyderabad-Mumbai highway near Zaheerabad. Other than the windmills, Pargi also uses solar energy. Its bus station for example runs on the power supplied by a rooftop solar system.
