

# Solar energy office

## Solar energy office

---

### Solar Energy Technologies Office , Department of Energy

The Solar Energy Technologies Office (SETO) accelerates the advancement and deployment of solar technology in support of an equitable transition to a decarbonized economy. Learn more about the office's work at our events and webinars. Learn how the Inflation Reduction Act could help you save on solar and review our federal solar tax credit resources.

### Top Reasons to ? Solar Energy , Department of Energy

The second Friday in March is Solar Appreciation Day! We're taking advantage of this opportunity to share the major benefits of sun power. The source of solar energy--the sun--is nearly limitless and can be accessed anywhere on earth at one time or another

### [American-Made Solar Photo Competition: Hit Me](#)

The U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) is in search of the best photos of solar power with the American-Made Solar Photo Competition: Hit Me with Your

Sun Shot. DOE announced the winners of the American-Made Solar Photo Competition: Hit Me with Your Sun Shot on August 21, 2024.

### [Solar Energy Technologies Office](#)

About the Solar Energy Technologies Office The U.S. Department of Energy Solar Energy Technologies Office (SETO) supports early-stage solar research and development with the goal of improving the affordability, reliability, and performance of solar technologies

### Success Story--Working with Co-ops to Increase

Funded by a \$1 million award from the U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO), ACCESS engaged in research, field tests, and conversations with seven cooperatives. As a result, the project successfully implemented five community solar programs, collectively delivering 7.5 megawatts of solar energy that directly benefits 7,800 low-  
...

### Funding Notice: Fiscal Year 2024 Photovoltaics

On May 1, 2024, the U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) announced the 2024 Photovoltaics Research and Development (PVRD) funding opportunity, which will award up to \$20 million for innovative solar photovoltaics (PV

**Solar Energy Technologies Office Fiscal Year 2021 Photovoltaics ...**

The Solar Energy Technologies Office Fiscal Year 2021 Photovoltaics and Concentrating Solar-Thermal Power Funding Program funds projects that advance solar PV and CSP R& D to help eliminate carbon dioxide emissions from the energy sector.

[Solar Energy Technologies Office Careers](#)

Ready to start building our clean energy future with a new career in solar energy? The U.S. Department of Energy's (DOE) Solar Energy Technologies Office (SETO) is dedicated to accelerating the advancement and deployment of solar technology in support of an equitable transition to a decarbonized economy no later than 2050, starting with a decarbonized power ...

### GovHK: Installation of Renewable Energy Systems

This article provides general information on installing solar photovoltaic (PV) system at your premises, connecting it to the grid and receiving FiT payment. What are the major hardware ...

### Funding Notice: Solar Energy Supply Chain Incubator

Office: Solar Energy Technologies Office FOA Number: DE-FOA-0003289 Link to Apply: Apply on EERE Exchange FOA Amount: \$50.5 million On June 6, 2024, the U.S. Department of Energy (DOE) Solar Energy ...

### Solar energy

Solar energy is the radiant energy from the Sun's light and heat, which can be harnessed using a range of technologies such as solar electricity, solar thermal energy (including solar water heating) and solar architecture. [1] [2] [3] It is an ...

### New round of applications for Solar Harvest opens (with photo)

The Solar Harvest - Solar Energy Support Scheme for Schools and Welfare Non-Governmental Organisations is open for a new round of applications today (October 19). ...

### Silicon Solar Manufacturing and Dual-use

The U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) announced the funding opportunity on July 6, 2023 and the 10 selected projects on May 16, 2024. Approach A robust domestic ...

### Solar Futures Study

The Solar Futures Study explores solar energy's role in transitioning to a carbon-free electric grid. Produced by the U.S. Department of Energy Solar Energy Technologies Office (SETO) and the National Renewable Energy Laboratory (NREL) and released on September 8, 2021, the study finds that with aggressive cost reductions, supportive policies, and large-scale ...

### Solar Energy Technologies Office

Solar Energy Technologies Office Overview The U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) funds early-stage research, development, and demonstration projects to improve the affordability, reliability, and domestic benefit of solar

### GovHK: Key Government Renewable Energy Projects

Besides, the Environmental Protection Department (EPD) commissioned a 150 kW solar energy generation system at Jordan Valley Landfill in February 2023, which is the first solar energy ...

### What is solar energy? , Department of Energy and Climate

What solar energy is, how it works, and how we use it in Queensland. Solar farms A solar farm is another name for a large group of solar panels converting solar energy into electricity. Many solar farms use similar panels to those on home roofs across Queensland.

### 2024 Solar Forecasting Workshop , Department of Energy

On July 9-10, 2024, the U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) hosted a workshop about solar forecasting to share and discuss the latest solar forecasting technologies, modeling, and resources that help utilities and grid and

### Energy Department's Solar Office Releases Five-Year Plan

Today, the U.S. Department of Energy Solar Energy Technologies Office (SETO) released its Multi-Year Program Plan, describing the priorities, actions, and goals to accelerate the advancement and equitable deployment of solar technology by 2025. The need to

### Workshop: Reimagining Interconnection for Solar Energy

The DOE Solar Office is hosting the next Reimagining Interconnection for Solar Energy (RISE) workshop on June 10, 2021, from 12 - 5 p.m. ET. This workshop will convene non-utility stakeholders in transmission and distribution to discuss interconnection.

### Hong Kong Solar Irradiation Map

By showing the solar irradiation of the building rooftops, the Hong Kong Solar Irradiation Map (the Map) enables users to perform a preliminary assessment of the solar energy potential for their ...

### Solar Energy Resources in Hong Kong from a Climatological ...

Solar energy is one of the main renewable energy resources. Its application is also an important aspect in climate change mitigation. Along with the advances in science and technology, the ...

### Why Go Solar? Connecting the Dots on the

SETO is Connecting the Dots on Solar Energy: making connections between solar energy investments and their enduring, long-term benefits and offer a resource hub so that the public can learn about how solar will positively impact our country's future.

### **Summary: Solar Energy Technologies Office Workforce Request ...**

On May 4, 2021, the U.S. Department of Energy (DOE) Solar Energy Technologies Office (SETO) published a Request for Information (RFI) on programs that support the development of a diverse and skilled clean energy workforce. The purpose of the RFI was to
