

Solar installation guidelines

Overview

What are the guidance notes for solar photovoltaic system installation?

To assist the public in understanding issues related to solar photovoltaic (PV) system installations and the FiT application procedures, the Government launched the Guidance Notes for Solar Photovoltaic System Installation today (October 15).

Can a solar PV system be installed in a lot?

Any installation of solar PV systems within a lot shall comply with all other lease conditions governing the lot. A solar PV system may include solar PV panels, inverters, energy meters, distribution boards, cables and other components together with supporting structures as necessary to form a complete grid connected solar PV installation.

How to promote the installation of solar photovoltaic systems in Hong Kong?

To facilitate the attainment of this objective and promote the wider installation of renewable energy systems by private sector on their land and properties in Hong Kong, Lands Department (“LandsD”) has introduced facilitation measures on the installation of solar photovoltaic (“PV”) systems¹ in private developments² under lease³. 2.

How do I install a solar system?

The first step to installing your solar system is an engineer site visit. After you sign a solar contract, an engineer will come by your property to evaluate the electrical status of your home and ensure everything is compatible with your incoming solar installation.

Do I need to meter a photovoltaic system?

It is assumed that aluminum framed photovoltaic (PV) panels mounted on a “post” and rail mounting system, the most common in the industry today, will be installed by the homeowner. While metering the system is encouraged, the

specification does not address system wiring elements for associated system sensors or monitoring equipment.

Can a solar PV system be installed on a roof?

For installation of solar PV system on the roof or roof of stairhood in both new and existing New Territories Exempted Houses, reference should be made to the pamphlet for “Building New Territories Exempted Houses” published by LandsD and available on the LandsD’s website ([.](#)).
