Overview

Batteries have become increasingly popular because they take an intermittent energy source like solar and turn it into a reliable and consistent supply of electricity. We recommend getting a solar battery quote if you want a backup power source or if your utility company doesn't have a net metering program that buys excess.

Picking a solar company is the most important decision you make when going solar. You need to trust them to drill holes in your roof, help you navigate financing and.

Solar incentives and rebates can cut the cost of installing solar in Baton Rouge by thousands of dollars. The most significant incentive is the 30% federal solar tax credit.
