

Solar panel cost minnesota

Overview

As of Nov 2024, the average cost of solar panels in Minnesota is \$2.74 per watt making a typical 6000 watt (6 kW) solar system \$11,500 after claiming the 30% federal solar tax credit now available. This is lower than the average price of residential solar power systems across the United States which is currently \$3.00 per watt. How much do solar panels cost in Minnesota?

As of August 2024, the average solar panel system costs \$3.11/W including installation in Minnesota. For a 5 kW installation, this comes out to about \$15,535 before incentives, though prices range from \$13,205 to \$17,865. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in Minnesota?

While a 5 kW system will only cost you \$15,535 in Minnesota, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Minnesota?

.

How much does a solar panel tax credit cost in Minnesota?

Work with a tax accountant to understand how a solar panel tax credit will impact your finances. The average cost of solar panels in Minnesota is \$20,365 for a six-kW system—that's about \$3.39 per watt. After the federal tax credit, the cost drops to just \$14,255.

Are solar panels tax deductible in Minnesota?

For instance, if you install solar panels in 2024, you can claim the federal tax credit on your 2024 tax return (filed in 2025). Currently, the federal tax credit for solar panels is worth 30% of installation costs. What cities in Minnesota have local solar incentives?

How many kW does a solar system need in Minnesota?

Since energy demands are below average in Minnesota, residents only need an 8 kW system, on average, whereas most Americans need 9.5 kW to offset their consumption. A lower system size means fewer panels are needed, which, in turn, means a lower installation cost.

Is it worth it to go solar in Minnesota?

It is worth it to go solar in Minnesota. The state gets enough sun to make solar power viable, and with the federal tax credit, state tax exemptions and local rebate programs, including those offered by major utility companies, you can save a lot of money on your solar panel installation in Minnesota.
