Can You Futureproof your property with solar panels in North Devon?

As energy prices increase every year, you can futureproof your property with solar panels in North Devon. Our experienced and growing team of surveyors will come out to meet you at your property or business premises. We'll do a complete survey in person, unlike national companies who often quote from images and google earth.

Where do solar panels come from in the UK?

In the UK, the majority of households fall within the medium to high electricity usage range. We're based in Exeter, Devon and provide solar panels across the South West. To find out more about the solar panel services we offer, speak to our solar panel installers today. Please note: Energy use groups based on Ofem's UK average.

Who are solar panel installers?

Solar Panel Installer - We are an Independent South West based UK Company that are not tied to any brand and offer impartial advice to suit your property. You choose the brands and products - we advise you! We are an independent Solar Panel installation company and therefore quote each customer individually depending on their needs.

Where do solar panel installers work?

Although we are based in Exeter, our solar panel installers work across Devon in areas such as: We have a team of technical engineers with a lifetime of experience in the industry ready to bring your home into the solar revolution.

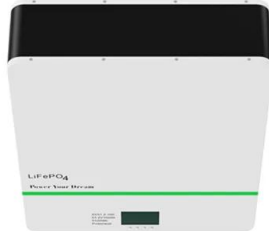

Who is solar PV Tech?

Here at Solar PV Tech, we are a family run local business with 14 years and counting of experience installing renewable energies. We install a variety of different solar panel and battery system sizes for your home or business.
