

Solar panel maintenance service

CE UN38.3 MSDS

Overview

Do solar panels need maintenance?

Solar panels generally require very little maintenance in order to function, so yes, you can usually just let them be. The only thing most solar panels need is a periodic light cleaning to make sure dirt, leaves, and other debris aren't obstructing the sun's rays.

Should I perform solar system maintenance on my own?

Do not attempt to perform solar system maintenance on your own! Not only is this a huge safety risk, it may void the warranties from your installer and/or manufacturer. In many cases, cleaning your solar panels should be very hands-off.

What is Solar System Maintenance?

Solar system maintenance involves a range of activities designed to keep the system operating at peak efficiency. Periodic maintenance helps to identify and address potential issues before they become major problems, ensuring that the system continues to produce energy effectively.

How often should a solar panel be cleaned?

Solar panels require very little maintenance, especially if they are on a tilt, as rain can wash away any debris. It is generally recommended that you perform solar panel cleaning between two and four times per year. Take extreme care when cleaning. Clean from the ground, as climbing around on your roof can be dangerous.

What is solar energy maintenance & why is it important?

Periodic maintenance helps to identify and address potential issues before they become major problems, ensuring that the system continues to produce energy effectively. Maintaining a solar energy system involves cleaning the panels, inspecting the components for damage, monitoring performance, and

ensuring that all parts are functioning correctly.

Do you need a solar professional to maintain your solar system?

Safety is paramount when performing solar system maintenance. Therefore, it is always best to use a licensed solar professional. They will de-energise the solar system and disconnect it from the grid before performing any maintenance tasks to avoid electrical shocks.
