

Solar photovoltaic panel rental fee

Overview

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid. Technically, they're not paying rent for your roof, because you'll get the.

The Rent-a-Roof scheme remains a good option if you cannot afford solar panels or don't want to take out a loan. Unfortunately, so few installers now offer the scheme that.

All revenue generated from selling excess energy back to the grid will go to the installer. You will not make any money directly from Rent-a-Roof.

Even though Rent-a-Roof is nowhere near as popular as it was a few years ago, it's still a great option for people who can't afford to buy solar panels. It's important to consider the downsides.

Buying a house with Rent-a-Roof solar panels could lead to mortgage complications. For example, if the lease includes maintenance cost.
