

# Solar photovoltaic panels on the roof of an old residential area

## Overview

---

It isn't a good idea to mount solar panels on old roofs. You will end up paying additional funds to your roofing contractor to remove panels before installing a new roof. Can you install solar panels on your roof?

Homes and businesses will be able to install rooftop solar panels more easily, under new rules announced today. Changes to permitted development rights rules will mean more homeowners and businesses will be able to install solar panels on their roofs without going through the planning system.

Do you need planning permission to install solar panels on your roof?

An increasing number of people are investing in solar energy. More and more homes are having solar panels, or solar tiles, installed on their roofs. Of course, with such installations, the topic of planning permission and building regulations often comes to the surface.

Can a solar panel be installed on a road?

There are a large number of formally approved solar panel installations in conservation areas, including on roofs that face the road. What you need to do is speak to your local council and let them know about your decision to install. Unless there is a valid reason to state otherwise, permission for the installation should be granted.

Can solar panels go above a sloping roof?

And they cannot go above the apex of a sloping roof at all, or be higher than the highest flat roof. For this reason, solar panels on flat roofs often require planning permission. What's more, the installation should be planned so it minimises the visual impact on the house and local area, as far as possible.

What is the ideal angle for rooftop solar panels in the UK?

The ideal angle for rooftop solar panels in the UK is around 40°. Most roofs are in this range, which allows the panels they host to capture as much sunlight

as possible.

Will homeowners be able to install rooftop solar panels more easily?

Homeowners will be able to install rooftop solar panels more easily without costly planning delays. This was published under the 2022 to 2024 Sunak Conservative government. Homes and businesses will be able to install rooftop solar panels more easily, under new rules announced today.
