

# Solar power plant in gujarat list

## Overview

---

As of 30 June 2022, Gujarat has an installed capacity of 19,414 MW of renewable energy, and includes 9419.42 MW of wind power, 7806.80 MW of solar power, 1990 MW of large hydro power, 109.26 MW of bio power and 89.39 MW from small hydro power. Under the Scheme for Development of solar parks and Ultra.

Solar power in , a state of India, is a fast developing industry given that the large state is mostly arid. It was one of the first states to develop .As June 2024, total.

- • • .
- .

Total rooftop solar power installation capacity of state is 3455.90 MW, as of April 2024. Gujarat is a top performing state in India in respect to rooftop solar.

, also called Charanka Solar Park, is being built on a 2,000-hectare (4,900-acre) plot of land near Charanka village in , northern Gujarat. So far, the park has witnessed investments of Rs 5,365 crore and generated 3,441 million.

Gujarat Solar Park-1 (also called Charanka Solar Park) is a near Charanka village in of , India. It is spread over an area of 2,000 hectares(4,900 acres). It has installed generation capacity of about 600 , as 2018. More 190 MW are under installation.

How much solar power does Gujarat have?

Gujarat's policy aims to hit 40,000 MW of solar power. It promotes solar parks and solar-wind hybrid systems. As of June 2022, it reached 19,414 MW in renewable energy. What are the key solar power projects in Gujarat?

Important projects include Charanka Solar Park, which is the largest in India, and Mithapur Solar Power Plant by Tata Power.

What are Gujarat's most important solar projects?

It's among Gujarat's most important solar projects. On January 25, 2012, Tata Power started the Mithapur Solar Power Plant. It shows the fast progress in solar tech and clean energy in Gujarat. This plant plays a big part in the state's solar energy scene. Adani Power finished Bitta Solar Park in January 2012.

How many MW solar PV plant in Gujarat?

GACL (Gujarat Alkalies and Chemicals Limited) is setting up 30 MW Solar PV plant, and GNFC (Gujarat Narmada Valley Fertilizers and Chemicals) is in the process of setting up 10 MW project. Projects of 95MW are under construction and 30MW under planning as of December, 2018. [ 5 ].

Which is the best solar power plant in Gujarat?

On January 25, 2012, Tata Power started the Mithapur Solar Power Plant. It shows the fast progress in solar tech and clean energy in Gujarat. This plant plays a big part in the state's solar energy scene. Adani Power finished Bitta Solar Park in January 2012. Its fast build and huge module use are impressive.

Which is the largest solar power station in Gujarat?

The Charanka Solar Park was opened on April 19, 2012. It's the largest solar power station in India. The park has 31 projects that add a lot to Gujarat's green energy. The park is a great example of solar energy on a large scale. It's among Gujarat's most important solar projects.

Why is Gujarat a top spot for solar energy in India?

Gujarat has become a top spot for solar energy in India. It has a lot of sunny, dry land perfect for making solar power. From March 2021 to March 2022, Gujarat grew its solar capacity from 4,431 MW to 7,180 MW. This jump shows Gujarat's firm promise to grow its clean energy use. The state has worked hard on adding solar panels.
