

Solar power world reviews

Overview

Is solar energy world a good company?

We regret going with Solar Energy World. Price point was very good. Installation was very good. It took about a month. From planning to full installation. Service was terrible. We never saw another service team after the install to address the full operation of the solar system.

Who is solar energy world?

Solar Energy World (SEW) is an independently owned solar company founded in 2009 that primarily serves the East Coast. The company works with solar manufacturers from around the world. It makes it easy to install solar panels and other solar products from various brands, such as Silfab Solar, LONGi Solar, and Q Cells.

Does solar energy world offer a warranty?

Solar Energy World offers solar batteries from Tesla Powerwall, Enphase, and SolarEdge. SEW also offers inverters from Enphase, SolarEdge, and Fronius. What Does the Warranty Include?

The company offers all customers a 30-year manufacturer's warranty on all purchased solar panels and inverters. The terms of the warranty include the following:.

Is freedom solar a good company?

Solar Power World chose the company as a Top Solar Contractor nine times. Freedom Solar is BBB accredited and holds an A+ rating from the organization. The company has many positive reviews on its BBB profile for its consistent installation updates and well-trained staff. However, negative reviews highlight issues reaching customer service.

Would you recommend solar energy world via Daren?

I would 100% recommend Solar Energy world VIA Daren. Great experience!! Tom Shaw has been excellent to work with. He is super friendly, knowledgeable, courteous, professional, and ALWAYS gets back to me with any questions or concerns I may have. The installation crews were great and approachable. They went over the project before starting.

How efficient are solar panels?

Most solar panels have efficiency ratings between 15% and 22%. Solar battery backup: A solar battery backup system stores excess energy generated by solar panels, enabling you to use that stored energy when the sun isn't shining, such as at night or during power outages.
