

Solar seal company

Overview

Who owns Solar Seal?

Consolidated Glass Holdings, Inc., an affiliate company of Grey Mountain Partners, has acquired the assets of Solar Seal, also known as Shaw Glass Co. Solar Seal operates from an 88,000-square-foot facility in South Easton, Mass., where it employs about 100 people.

Where is solar seal glass made?

Unprocessed glass panel in glass factory. Solar Seal says it's worked on projects throughout the Northeast out of its South Easton facility. Solar Seal LLC, an architectural glass fabricator and distributor, told state officials it plans to lay off 72 workers at its South Easton facility by early August, according to state records.

Who is seal solar?

Founded in Arkansas in 2012, Seal Solar was created to offer a solution in response to homeowners' desire to reduce electricity costs for their home. Today, Seal Solar is the largest solar design + install firm in Arkansas working with homeowners, farmers, developers, utility companies, government entities, and business owners across the state.

What is solar seal?

Solar Seal is based on terpolymer technology, which offers an alternative to silicone & urethane sealants. Protect your investments with high-performance terpolymer chemistry that provides exceptional weather resistance, adhesion, elongation and color stability.

Is solar seal a good product?

Solar seal is hands on the highest quality adhesive sealant on the market. Be aware that the product may leave a smell for a couple of days while it dries. You can't beat this product and price; the customer service is outstanding.

Amazing !!! I will be short. I will never buy another product, Solar Seal is the go-to for everything. AMAZING !!.

How can seal solar help?

Our install teams at Seal Solar have over 20 years of experience in the industry, and are at the ready to help you make the switch to a solar photovoltaic (PV) system. Seal Solar conducts a solar analysis of your property to custom design an appropriately-sized PV system for your property's specific electricity needs.
