

Solar system project styrofoam balls

Overview

Collect the materials needed to construct the planets. It is best to have.

Cut the string that the planets will hang from. You will need to cut these at different lengths so the planets hang at different levels.

Find objects to use to suspend the planets. You can find these items at the craft store along with your other materials. You will need a wooden dowel that is 1/4 inch in diameter.

Making a solar system mobile is a great activity for when you're learning about the solar system. All you need to build your mobile are some simple supplies and an assortment of craft paints.
