

Solar system worksheet

Overview

It's always a great time to introduce to kids our amazing solar system of planets. Whether they are young or old, students of all ages are fascinated by learning about the planets in our solar system.

Older students can work on their fine motor skills by cutting and pasting the planet labels to match the correct planet. We've created some hand drawn planet coloring pages and labels.

We have a fun collection of free printable planet coloring pages, as well as celestial bodies, and solar system diagrams. Younger students will appreciate the easy color, thick black.

It's never too early to learn the order of the planets! These printable bookmarks and bracelets will help even the youngest students to memorize the planets in order.

If you're looking for a simple way to help your students memorize the order of the planets in our solar system, we've got a great mnemonic device to help! Simply take the first letter of each planet and use that to create a memorable saying. Here is ours: My Very Excited Mouse Just Slurped Up Noodles. (Mercury, Venus,

It's always a great time to introduce to kids our amazing solar system of planets. Whether they are young or old, students of all ages are fascinated by learning about the planets in our solar system.
