

Solet photovoltaics

Overview

Who manufactures Solet solar modules?

UAB Solet manufactures Solet Photovoltaics solar modules. In addition, they have produced modules for recognized foreign brands. Quality is ensured through co-certification and annual audits by customers. Driven by Solar energy to implement your ideas!.

Who makes Solet photovoltaics monocrystalline modules?

Solet Photovoltaics monocrystalline modules are manufactured by UAB Solet (prev. MG AB Precizika). Solet Photovoltaics monocrystalline modules are a product of UAB Solet (prev. MG AB Precizika).

What is the standard size of Solet solar modules?

Solet's standard size modules are manufactured according to proven technology and materials and have been running without faults for a decade with superb efficiency. Solet Glass-glass modules are solar panels with solar cells arranged between two glass panes.

What is Solet's glass-glass product?

Solet's glass-glass photovoltaic module was awarded the gold medal for 'Product of the Year 2012' in the machinery and equipment section. Solet's standard size modules are manufactured using proven technology and materials. The modules have been running without faults for a decade with superb efficiency.

Why should you choose Solet Photovoltaics?

Solet offers reliable and advanced technology along with standard modules. They can produce individual (un)framed, glass-glass modules that can be designed in different colors and size parameters.

What are Solet's glass-glass modules?

Solet's glass-glass modules are solar panels with solar cells arranged between two glass panes. We rely in particular on this technology to offer our customers longevity and maximum efficiency. Solet uses reliable and advanced technology, along with standard modules.
