

Specifications of JA Solar 270 photovoltaic panels

Overview

DC Electrical Characteristics
STC Power Rating 270W
PTC Power Rating 244W
1STC Power per unit of area 15.3W/ft² (165.1W/m²)
Peak Efficiency 16.51%
Power Tolerances 0%/+2%
Number of Cells 72
How to install JA Solar modules?

JA solar recommends installing the modules with a tilt angle of at least 10 degrees, making it easier for dust to be washed off by rain. Ensure the installation method and supporting system of modules is strong enough to make the modules can withstand all the load conditions.

What is included in the JA Solar installation manual?

Thank you for choosing JA SOLAR modules! This Installation Manual contains essential information for electrical and mechanical installation that you must know before handling, installing JA Solar Modules. This Manual also contains safety information you need to be familiar with.

Do JA Solar modules corrode?

JA Solar modules have passed the IEC 61701 salt-mist, but galvanic corrosion can occur between the aluminum frame of the modules and mounting or grounding hardware if such hardware is comprised of dissimilar metals.

Why should you choose JA Solar?

This time-tested legacy module series has been proven to be one of the powerful and most reliable products offered by JA Solar and the most popular choice by PV system installers and customers around world. Specifications subject to technical changes and tests. JA Solar reserves the right of final interpretation.

How do JA Solar modules work?

The junction boxes used with JA Solar modules contain bypass diodes wired in parallel with the PV cell strings. In the case of partial shading, the diodes

bypass the current generated by the non-shaded cells, thereby limiting modules heating and performance losses. Bypass diodes are not over-current protection devices.

How to unpack JA Solar modules?

Store pallets in a ventilated, rain-proof and dry location until the modules are ready to be unpacked. Please unpack the package of JA Solar modules according to “JA Solar Modules Unpacking Instruction”. Do not lift the modules by grasping the module’s junction box or electrical leads in any condition.
