

Successful bid price of industrial energy storage project in Egypt 2030

Overview

How much FDI is needed in Egypt's energy sector?

FDI is concentrated in the oil and gas industry (around three-quarters of total investments), followed by real estate, manufacturing, financial services and construction. The International Finance Corporation (IFC) believes that EGP 2 Trillion are required to be brought into Egypt's energy sector in climate-smart investments by 2030.

How much will Infinity-E invest in Egypt?

In February 2021, Infinity-E, the subsidiary of the Egyptian company Infinity Solar, announced plans to invest more than EGP 300 million to deploy 300 of its charging stations for electric vehicles in Egypt.

How much money does Egypt need to control the electrical network?

The minister added that Egypt is currently working to establish centres to control the electrical network with investments of EGP 5.4 billion (US\$ 344 million), which come in addition to a global control centre at the New Administrative Capital (NAC); the electrical power plant is the largest of its kind in the world.

How much local content will wind farms have in 2020?

The Ministry of Electricity and Renewable Energy (MOERE) succeeded in reaching 30% local content for wind farms in 2018 and was expected to increase the share to 70% by the end of 2020. The ministry was also expected to reach 50% local content for concentrating solar power (CSP) projects by the end of 2020.

How much money is needed to revamp the energy sector?

In 2015, the Ministry of Petroleum said it would require an investment of around EGP 1.9 Trillion to revamp the energy sector by 2022, including EGP 394 billion in new investment. Gas development would make up around EGP

339 billion, or a third of spending.
