

Successful bid price of warehouse solar storage project in Serbia 2025

Overview

The ministry reported that the winning solar projects received a price of €50.9/MWh, while the winning wind projects received €53.5/MWh, significantly lower than the maximum permitted bids of €72/MWh and €79/MWh, respectively.

The ministry reported that the winning solar projects received a price of €50.9/MWh, while the winning wind projects received €53.5/MWh, significantly lower than the maximum permitted bids of €72/MWh and €79/MWh, respectively.

Serbia has allocated 645 MW across 10 wind and solar projects in its second renewables auction, setting average prices at €0.0509 (\$0.0533)/kWh for solar and €0.0535/kWh for wind. The government said the rates are well below market levels. Serbia's Ministry of Mining and Energy has concluded the.

Bids for an overall 1,171 MW were submitted, compared to a total quota of 424.8 MW. In the first auctions, bids were placed for 602.8 MW while the quota was 450 MW. The available quota for wind power projects is 300 MW while firms applied for an overall of 673 MW. Bids for 498 MW in total were.

The successful bids were hailed as evidence of an "extremely successful" tender process by Serbian minister of energy and mining Dubravka Đedović Handanović. "The second round of auctions was extremely successful, both in terms of capacity and offered prices, but also in terms of the fact that all.

Serbia has made significant strides in its renewable energy sector by successfully completing its second renewables auction, allocating a total of 645 MW across ten solar and wind projects. This initiative is part of the country's broader strategy to enhance energy security and transition towards a.

The approved maximum bid prices are EUR 79.00 (USD 83.1) per MWh for wind and EUR 72.00/MWh for solar PV. The deadline for interested parties to submit their offers is February 5, 2025. The start of the competition follows technical cooperation between Serbia's Ministry of Mining and Energy and the.

The largest quota was awarded to Novo Selo Power (6.4 MW at a bid price of 89.8 EUR/MWh), followed by Hiperion Sol (4 MW at a bid price of 88.65 EUR/MWh) and Terra Solar (1.2 MW at a price of 89.8 EUR/MWh). In February, it was announced that a second round of auctions for an additional 400 MW of.
