

Tata agaratas energy storage solutions

Overview

Who is agratas & Tata Technologies?

Agratas, Tata Group's global battery business, and Tata Technologies, a global product engineering and digital services company, have announced their collaboration to scale Agratas' product development and enterprise systems, supporting the design, development, and manufacturing of best-in-class battery solutions.

What is Tata agratas energy storage solutions?

Tata Agratas Energy Storage Solutions Pvt., a subsidiary of Tata Group, signed a memorandum of understanding on Friday to establish an electric-vehicle battery plant that will have a production capacity of 20 gigawatt hours. The Tata plant would make Gujarat a leader in lithium-battery manufacturing. (Representational).

What is Tata Group & agratas energy storage solutions deal?

The deal includes a joint memorandum of understanding between Tata Group subsidiary Agratas Energy Storage Solutions and the government of the western state of Gujarat under the new Electronics Policy (2022-28).

What will Tata Technologies do for the battery industry?

Tata Technologies will develop the digital business architectures to support the production of best-in-class battery solutions at Agratas' gigafactories in India and the UK. Agratas is setting up 40 GWh of battery manufacturing capacity in the UK.

How can Tata Technologies help agratas grow?

As Agratas scales up its operations, Tata Technologies is also helping Agratas to mobilise resources by facilitating recruitment of highly skilled individuals, enabling onboarding and supporting employee lifecycle activities during this critical growth phase.

Why is Tata Group partnering with agratas?

The two companies are maximising Tata Group's comprehensive #OneTata approach, with Tata Technologies also developing the digital business architectures to support the production of best-in-class battery solutions at Agratas' gigafactories in India and the UK.
