

Tax rebates for solar panels

Overview

What is a solar panel tax credit?

The solar panel tax credit allows filers to take a tax credit equal to up to 30% of eligible costs. There is no income limit to qualify, and you can claim the credit each year you're eligible for it. The credit amount will remain 30% through 2032.

Is the federal solar tax credit refundable?

In 2020 - 2021, the ITC was reduced to 26%. The Inflation Reduction Act of 2022 reinstated and renamed the program the Federal Solar Tax Credit (now known as the Clean Residential Energy Credit) and raised the credit back up to 30%. The Residential Clean Energy Credit is non-refundable.

Are solar PV systems eligible for a tax credit?

Solar PV systems installed in 2020 and 2021 are eligible for a 26% tax credit. In August 2022, Congress passed an extension of the ITC, raising it to 30% for the installation of which was between 2022-2032. (Systems installed on or before December 31, 2019 were also eligible for a 30% tax credit.).
