

Tecnoware power systems

Overview

Who is tecnaware power systems?

Since 1986 Tecnoware Power Systems is an Italian company producing high quality UPS from 600VA up to 100KVA, Central Supply Systems (CSS), Inverter and stabilizers. These systems guarantee the continuous supply of power to computers, electromedical and industrial equipment, data center, networking and telecommunication systems.

What are tecnaware systems?

These systems guarantee the continuous supply of power to computers, electromedical and industrial equipment, data center, networking and telecommunication systems. Tecnoware designs each product following the European Directive on Eco Design adhering to the “Code of Conduct on Energy Efficiency and Quality”.

Should I read the tecnaware era plus ups manual?

Read this manual carefully and completely before installing and using the TECNOWARE ERA PLUS Uninterruptible Power Supply, which, from here after, will also be referred to as UPS. This manual should be kept close to the UPS and read before the UPS is installed and used. The UPS must be used only by properly trained personnel.

Where is tecnaware located?

With offices and Partners in over 26 countries and more than 2 millions of installations, Tecnoware now poses a real Italian excellence in the world. Office in Spain and Dubai UAE.

Why should you choose tecnaware?

All UPS are conform to Industry 4.0, the advanced industrial automation. The constant research and the exclusive use of “1st Class Quality” components guarantee the highest level of quality and performance. With offices and

Partners in over 26 countries, Tecnoware now pose a real Italian excellence in the world.

What happens if tecnoware is disregarded?

TECNOWARE declines any responsibility if this warning is disregarded.
Warning to the technical personnel authorized for Service: since internal components are connected to the batteries, they will remain powered, and therefore dangerous, even after the UPS has been disconnected from AC power mains.
