

The australian energy storage conference

Overview

When is the Australian energy & battery storage Conference?

The Australian Energy & Battery Storage Conference is set to return in 2025. Mark your calendars for the 24 - 25th of February to join us in exploring the latest advancements in large-scale batteries, community storage, and pumped hydro projects shaping Australia's clean energy future.

Why should you attend the Energy Storage Summit Australia?

If your goal is to meet other industry professionals and create valuable business partnerships to better harness business opportunities in the region, then the Energy Storage Summit Australia is the right place for you. The first edition of the Energy Storage Summit Australia was an event full of life, excitement, and industry connections.

Why should Australia invest in battery storage?

Australia is rapidly investing and rolling out battery storage projects across the nation to fast-track the clean energy future. This exciting event brings together the energy industry, promotes greater transparency, and facilitates effective collaboration across the sector.

Will a 100MW battery energy storage system be installed in Western Australia?

Swedish-based developer OX2 has acquired a proposed 1GW onshore wind farm in Western Australia, which includes plans for a 100MW co-located battery energy storage system (BESS). The first batteries have been installed at state-owned Synergy's 500MW/2,000MWh Collie battery energy storage system (BESS) in Western Australia.

Where is Australia's energy storage hotspot?

After a stellar event in Sydney, the Australian Energy Storage Conference and Exhibition (AES) 2021 returns Australia's energy storage hotspot, Adelaide.

AES 2018, in Adelaide delivered the largest conference attendance in event history and with more international participation than ever before.

What's happening at Australia's Global Summit?

As legislation and governments look to grow Australia's presence globally, the Summit will explore state developments and markets, from the Northern Territory, Western Australia, Tasmania, South Australia and New South Wales.
