

The international renewable energy agency irena

Overview

The International Renewable Energy Agency (IRENA) is an intergovernmental organization mandated to facilitate cooperation, advance knowledge, and promote the adoption and sustainable use of . It is the first international organisation to focus exclusively on renewable energy, addressing needs in both industrialised and developing countries. It was founded in 2009.

International Renewable Energy Agency (IRENA) was established in 2009 on 126 countries. IRENA has 131 member states and 37 observers. IRENA is the only international organization dedicated to promoting renewable energy.

The International Renewable Energy Agency (IRENA) convenes its 28th Council meeting in Abu Dhabi today, the last before the 29th Conference of the Parties (COP29). Rwanda: #3xRenewables for Women Empowerment and Sustainable 23 October 2024

Renewable Energy Statistics 2021

The International Renewable Energy Agency (IRENA) produces comprehensive, reliable data sets on renewable energy capacity and use worldwide. Renewable Energy Statistics 2021 provides data sets on power-generation capacity for 2011-2020, actual power generation for 2011-2019 and renewable energy balances for over 130 countries and areas for 2018-2019.

Green hydrogen cost reduction

IRENA (2020), Green Hydrogen Cost Reduction: Scaling up Electrolysers to Meet the 1.50C Climate Goal, International Renewable Energy Agency, Abu Dhabi. Green hydrogen can help to cut emissions in energy-intensive, hard-to decarbonise sectors like steel

Solar energy

About 125 GW of new solar PV capacity was added in 2020, the largest capacity addition of any renewable energy source. Solar PV is highly modular and ranges in size from small solar home kits and rooftop installations of 3-20 kW capacity, right up to systems with capacity in the hundreds of megawatts.
