Overview

Enphase Energy and APsystems are the most well-known microinverter manufacturers, while ZJBeny, Hoymiles & ZJ Beny recently entered the increasingly competitive market. What is a solar microinverter?

Solar microinverters refer to electronic devices used in photovoltaics to convert the direct current (DC) generated by solar panels into alternating current (AC). They function in a parallel circuit and can separate power output from each panel while converting it into grid voltage.

What is the solar inverter manufacturing industry?

The solar inverter manufacturing industry focuses on producing devices that convert the variable direct current (DC) output of a photovoltaic solar panel into alternating 240V current (AC) for commercial use or feeding into an electricity grid. Companies in this industry range from multinational corporations to smaller specialized firms.

Who makes the best microinverter?

Enphase Energy and APsystems are the most well-known microinverter manufacturers, while ZJBeny, Hoymiles & ZJ Beny recently entered the increasingly competitive market. The latest models added in 2024 are the new 3-phase IQ8-3P series from Enphase, the new SAJ M2 Series, and the NEO 2000M-X quad micro from Growatt.

What is the global solar microinverter market value?

The global solar microinverter market reached a value of US\$ 231 Million in 2021. Solar microinverters refer to electronic devices used in photovoltaics to convert the direct current (DC) generated by solar panels into alternating current (AC).

What are the most popular microinverters available in Australia?

Below is our detailed comparison of the most popular microinverters available

in the Australian, European, Asian and US markets. Enphase Energy and APsystems are the most well-known microinverter manufacturers, while ZJBeny, Hoymiles & ZJ Beny recently entered the increasingly competitive market.

Which microinverters are available in 2024?

The latest models added in 2024 are the new 3-phase IQ8-3P series from Enphase, the new SAJ M2 Series, and the NEO 2000M-X quad micro from Growatt. Since many of these microinverters have just become available, please provide any professional feedback here. Other inverter comparison charts:
